

Dear Bill Campbell, Orange County Supervisor, John Moorlach, Orange County Supervisor, Audra Adams, Aide to Supervisor Shawn Nelson, Janet Nguyen, Orange County Supervisor, Pat Bates, Orange County Supervisor, and Shawn Nelson, Orange County Supervisor,

We are pleased to present you with this petition affirming one simple statement:

"Vote "NO" on Saddle Crest. Insist that Rutter follow the Foothill Trabuco Specific Plan and the Orange County General Plan, which protect our cherished rural canyons for all present and future Orange County residents."

Attached is a list of individuals who have added their names to this petition, as well as additional comments written by the petition signers themselves.

Sincerely,
Ray Chandos

No double standards! Not only is it wrong to ruin the canyon, but I tried to build a small house out there once (not a few dozen) and the local government blocked me. Citing rules that houses need to be on at least 4 acres out there to prevent said suburban sprawl... Guess that doesn't apply to companies who grease the right wheels eh???

Hoyle Kim
Irvine, CA 92620
Oct 1, 2012

we are opposed to the SADDLECREST development, as it is not based on the specific TRABUCO PLAN.

Leonard J. Galasso
Trabuco Canyon, CA 92678-0993
Oct 1, 2012

I have lived in Orange County, since the early 1960's; long enough to see the loss of open space reduce our quality of life. This project will sound the death nail to one of the last remaining rural byways in our county. If you wish, as I do, that Orange County remain a highly desirable place to live, you will NOT approve this circumvent of the "Foothill Trabuco Specific Plan".

Michael P. Waldon
Anaheim Hills, CA 92808
Oct 1, 2012

If Rutter Development Corp is allowed to move forward with this development, it will open the floodgates to other developers and will ruin the rustic and tranquil character of the Santiago and Trabuco Canyon rural communities. One still gets the sense of what Orange County must have been like some 75 years ago when you're back on one of these country roads and large scale development like the one that's being proposed will take this away from present and future generations.

Hugo Rico
Orange, CA 92867

Katie McGowan
Silverado, CA 92676
Oct 1, 2012

Please vote "NO" on Saddle Crest. Remember the Santiago Canyon Fire of 2007, that threatened ~750 homes in the canyons, and destroyed 12? These hills and canyons are MEANT to burn, and building more homes there would be the height of foolishness. How are these extra people supposed to evacuate? Santiago Canyon Road is only 2 lanes.

Jill Miotke, Ph.D.
Costa Mesa, CA 92627
Oct 1, 2012

Please stop development of more buildings. In all of Orange County this area is the last "rural" spot left. Let's keep South County unique!

Vote "NO" on Saddle Crest. Insist that Rutter follow the Foothill Trabuco Specific Plan and the Orange County General Plan, which protect our cherished rural canyons for all present and future Orange County residents.

janet wayne
irvine, CA 92620
Sep 30, 2012

Dear Supervisors, Please say "NO" to Saddle Crest and Rutter's plan gutting amendments when voting on Oct. 2nd. Trabuco Canyon should remain rural and the ancient oak forest need to be protected. Live Oak Canyon is a beautiful one of a kind place in orange county. These people could go build their project anywhere but we can never have another place as beautiful and as pristine as our canyon. Please save our canyon, please. Thank you for your help. Alison Zor

Sep 30, 2012

As an orange county resident who often takes pleasure drives in and around Trabuco Canyon, I find this plan absolutely abhorrent. More and more of Orange County's rural canyons are being ruined by urban sprawl, In the thirty years I have lived here, I've seen some of the most beautiful parts of the county, such as Laguna Canyon, the coast between Laguna and Huntington Beaches, and the areas around San Juan Capistrano, just to name a few, completely ruined by urban sprawl. This can't be allowed to continue.

Christopher Beilby
Santa Ana, CA 92701

This entire natural area should remain rural and as undeveloped as possible (no large developments). The FTSP was arrived at through many months of community involvement and must be maintained. Santiago Canyon Road can accept no more traffic than it already has. Vote NO on Saddle Crest.

We don't have the roads or infrastructure to support this kind of a project. To do so would put a big burden on the County. In addition, this open space is necessary to keep the character of the Eastern OC what the public expects it to be. Your duty is to the public and not developers. You need to learn from the City of Orange sell out to developers that has not gone well.

Sep 29, 2012

There is good reason we have ruled to keep old oaks, sycamores and ridge-tops: they are an important part of our heritage here in OC. The rules are there to protect them even when someone wants to enrich our coffers by building. The only ones really getting rich is the builder. OC will then have to spend to widen roads, increase sewers and all other infrastructure. It is a BAD deal all around and shouldn't even be considered. Open ridgelines, no filling of canyons and leave our trees alone!

Orange county is a place filled with track housing, the more housing the less there is for special areas like, Trabucco Canyon to exist. With a decrease in things like the Canyon I see a direct connection to the decrease in reason to be in Orange county!

Natalie Brier
Lake Forest, CA 92630
Sep 28, 2012

Stephanie Townsend
Orange, CA 92865
Sep 28, 2012

Dear Orange County Supervisor, As concerned residents of Orange County, I urge you to reject the proposed development by Rutter Development of 65 residential homes called "Saddle Crest" in Trabuco Canyon and require the developer to conform to the current requirements of the Foothill/Trabuco Specific Plan (FTSP) and Orange County General Plan. To shoe-horn in this ill-suited project, the developer is planning to change not only the FTSP but also the County's General Plan in ways that will have wide-ranging implications for all of OC's unincorporated areas. For sure, the developer's plan contravenes the FTSP in many critical ways and allows the developer to proceed with a flawed plan that would be detrimental to a unique Orange County resource and would massively increase traffic on Santiago Canyon Road. As you know, the FTSP as it currently stands does allow for appropriate development while creating a buffer between OC's ever-expanding urban areas and the wilderness of the Cleveland National Forest. All OC residents value the rural canyons and find these local areas essential for recreation and renewal. Rutter's specific project calls for broad changes not only to the FTSP, but to the entire General Plan and all specific plans, with very significant ramifications for this and all future development throughout Orange County. Also, the project is completely at odds with the County's recently adopted "Sustainable Communities Strategy" (SCS), which is supposed to guide growth policies to avoid sprawl and help meet mandated reductions in greenhouse gas emissions. These are all reasons why you should vote NO on Rutter's Saddle Crest project. Please insist that this developer propose a project that meets the requirements of the FTSP to ensure that the area continues to be rural in character and preserves our natural resources for generations to come. Do not allow a developer with an overly aggressive plan to set Orange County land-use policy. Thank you for your consideration of my thoughts in this matter. Please incorporate our comments into the administrative record for the Saddle Crest project. Signed, Pat & Dick Cabe

Sep 27, 2012

It is important to save sites and properties of cultural value to all the ethnic communities of Orange County. The original citizens of the County, the Native Americans, should not be slighted in their beliefs merely because as a group they are small or seem invisible. Their beliefs are based on places on the land, and the vast majority of such places have already been destroyed.

Sep 26, 2012

Dear Orange County Supervisor, As a concerned resident of Orange County, I urge you to reject the proposed development by Rutter Development of 65 residential homes called "Saddle Crest" in Trabuco Canyon and require the developer to conform to the current requirements of the Foothill/Trabuco Specific Plan (FTSP) and Orange County General Plan. To shoe-horn in this ill-suited project, the developer is planning to change not only the FTSP but also the County's General Plan in ways that will have wide-ranging implications for all of OC's unincorporated areas. For sure, the developer's plan contravenes the FTSP in many critical ways and allows the developer to proceed with a flawed plan that would be detrimental to a unique Orange County resource and would massively increase traffic on Santiago Canyon Road. As you know, the FTSP as it currently stands does allow for appropriate development while creating a buffer between OC's ever-expanding urban areas and the wilderness of the Cleveland National Forest. All OC residents value the rural canyons and find these local areas essential for recreation and renewal. Rutter's specific project calls for broad changes not only to the FTSP, but to the entire General Plan and all specific plans, with very significant ramifications for this and all future development throughout Orange County. Also, the project is completely at odds with the County's recently adopted "Sustainable Communities Strategy" (SCS), which is supposed to guide growth policies to avoid sprawl and help meet mandated reductions in greenhouse gas emissions. These are all reasons why you should vote NO on Rutter's Saddle Crest project. Please insist that this developer propose a project that meets the requirements of the FTSP to ensure that the area continues to be rural in character and preserves our natural resources for generations to come. Do not allow a developer with an overly aggressive plan to set Orange County land-use policy. Thank you for your consideration of my thoughts in this matter. Please incorporate my comments into the administrative record for the Saddle Crest project. Signed, Thomas Getz

I strongly feel that further development in the canyon areas should NOT be permitted. Furthermore, the canyon area specific plans should remain in tact to protect the rural canyons. The canyons are the last best place in Orange County because they have not been developed and to date, an effort has been made to preserve and protect the oak trees and other natural resources.

Ryan Gale
Modjeska, CA 92676
Sep 26, 2012

Please OC Supervisors, vote NO and insist that the developer follow the Foothill Trabuco Specific Plan and the OC General Plan that provide protection for our finite resources in our rural canyons. We look to you to protect and preserve our resources. Thank you!

Sep 26, 2012

I am tired of claims from our reps that they are doing what WE want. OVER BUILDING FOR THE SELECT FEW IS NOT WHAT I WANT. I have enjoyed this area for 35 years. I mountain bike there daily. I would like the kids of our future to have a reason to put down their cell phones, computers and video games and go outdoors and enjoy what I have for many, many years. CORRECT ME IF I AM WRONG. Are we not in a water shortage that is getting worse? Is our largest power plant down and not working? WHEN ARE YOU GOING TO STOP building and depleting our already very short resources and stealing open spaces from our kids in the name of lining pockets. Gary Gruber

What's the point of having plans if they are just going to be tossed aside whenever someone with money asks? This goes for Silverado/Modjeska plan too. Let's keep the last refuges of rural life in the county.

Adam Fanello
Silverado, CA 92676
Sep 25, 2012

The Saddle Crest Housing project does not belong in this rural area. They should trade the land for some in an urban area. Also there is a grotto with a spring in the open space area that has been submitted to the Native American Heritage Commission as a sacred site. Having a housing project so close will have an adverse effect on this site that is sacred to the Juaneno Indians.

Sep 25, 2012

In the OC Planning Commission hearing even the Chairperson had concerns regarding the traffic survey including the non-accessment of the 'T' intersect of Ridgeline Dr and Sanitago Canyon Road-the intersect with NO stop light. Since this location id near the main entry to the proposed development; the Chair asked County Staff to comment. In County Staff comment it was disclosed that NO traffic study was conducted at this intersect, under the assumnsion this study was not require as the Ridgeline Dr signaled intersect had been studied. This is inconsistant with CEQA and requires recirculation of the DEIR (now FEIR) per CEQA guidlines. Since this error is an oversight on OC County Staff the proper pathway would be to follow State law and the CEQA protocols. Thank you for your time to consider this error and ommission. DM

Silverado, CA 92676
Sep 25, 2012

The FTSP took years to formulate and make law. Everyone is happy with it except a few developers who don't live in the Canyons or appreciate the opportunities for nature preservation and education, as well as hiking and horseback riding. Preserve our last bit of nature, protect endangered species, and vote no on the proposed changes to the Specific plan.

Elsie Addington
Trabuco Canyon, CA 92678-0047
Sep 25, 2012

My singular reason for moving here almost 18 years ago was to surround myself with nature and a rural flavor. No on Saddle Crest and any other canyon development. Just because you had an idiot handling your finances, doesn't mean we should pay for your screw ups.

Leslie Paskus
Silverado, CA 92676

Approval of this project as proposed would violate an agreement made a long time ago that OC planning participated heavily in crafting and that OC Supervisors approved: The FTSP. We had a deal. But now OC Supervisors are considering renegeing on it by approving a project that will gut it? What?! If you do this it will not be forgotten. And will be an incredible breach of faith and trust.

Sep 24, 2012

I agree that property owners have rights that should be respected. To be anti-development just for the sake of not wanting things to change is naive. All property owners rights should be protected. To this end, what about the property owners who are already here and have relied upon various specific plans to protect their interests. What right does any board or governing body have to change legal documents against the wishes and will of those involved and effected who have made life style decisions based on these same documents.

Phil Buller
Silverado, CA 92676
Sep 24, 2012

we need places like this to ensure the ability to keep our kids outside and learning what nature has to offer

Please support the Foothill Trabuco Specific Plan. The character of this land and the people who choose to live in one of the last surviving rural areas is worth preserving. I have made and continue to make a huge personal commitment of my time and energy to this community. I purchased property in this area based on this character and the rules regarding development.

Please do not change the zoning in the Orange County foothills. This land needs to be preserved for the use of all county residents - now and in the future. We all need places to retreat to in order to recharge our energy. On a pragmatic level, this is not a wise place to build a big project due to the fire danger in the canyons. Please listen to the residents of the county and vote no on this zoning change. Thank you for your consideration.

Patricia Hicks
Orange, CA 92867
Sep 24, 2012

People are openly discussing the collusion between the OC Board of Supervisors with this developer. It is obvious decisions are being made outside of the law. Because of this, It appears clear the board has a hidden agenda to dismantle the Foothill Trabuco Specific Plan for development. We want to know why. Why does the board *continuously* entertain a developer who refuses to submit plans which adhere to the specific plan for the area? Obviously there is reason.

Sep 24, 2012

At some point our elected leaders have to stop doing the bidding of the developers and corporations and think about the quality of life in our increasingly densely populated county. This is bad planning, bad land use, and bad for the future of the county. Turn down the erosion of the Foothill Specific Plan. All that has changed since it was adopted is the audacity of the developers in making this end run around the process. It was a sound specific plan when it was adopted; it's what's best for the county now.

Scott Martelle
IRVINE, CA 92612
Sep 24, 2012

I vote "NO" on the Saddle Crest clustering of homes and all future clustering. EVERYONE like me, has to follow the guidelines of the "FTSP" with "NO" changes. Please vote "NO"

Sep 24, 2012

Why would you redo the County General plan, change the methodology of zoning, change the traffic threshold requirements for a rural road, just because some developer wants to make some money in an area he doesn't care anything about? Places are protected for a reason; once they're gone, we can't get them back.

Connie Carter
Silverado, CA 92801
Sep 24, 2012

There are many reasons to reject this development; you are not legally bound to approve it. Support the FTSP and its long term vision. Vote no!

Theresa Sears
Orange, CA 92869
Sep 24, 2012

The developer of this proposed tract has shown open contempt for the existing rules and indicated that approval from the Board of Supervisors is a foregone conclusion. Say it ain't so.

We don't need more housing in this sacred area. Enough is enough, this should be left as is, no new development.

mark scott
NEWPORT BEACH, CA 92660
Sep 23, 2012

No on saddle crest , No on these far reaching amendments to the FTSP. If this site plan goes thru our Trabuco rural residential lifestyle & our ability to keep our animals will be taken from us by extinction along with our wildlife. An urban cluster of 65 homes will destroy ,the wildlife patterns from whiting ranch to the Cleveland national forest, the destruction of an Orange County recreational element and will open the flood gates to future development with no real rural resident ability to keep our horses and small farm animals. This is an outrage to those of us who have built here by the FTSP guidelines and have invested our life's here to support what is now extinct in the rest of Orange County.

Delma Johnson
Trabuco Cyn, CA 92678
